Win... Participants will be entered into a lottery to win free registration for IM2014 in Orlando, Florida.*

DESCRIPTION

Primary care has become increasingly complex, with higher rates of chronic illness, increasing intensity of services and growing administrative responsibilities and burnout. How does a practice transform itself to deliver higher quality while improving the work-life for clinicians and the rest of the team? An organized system, founded on clinical teams, proactive planned care and organizational tools can go a long way toward improving quality of care, fostering staff and clinician satisfaction and reducing total costs. This free, live educational program will feature quality experts who will provide practical advice to help you meet your goals.

AGENDA

Friday, January 24, 2014

7:00 – 8:30 pm: ***In Search of Joy in Practice: Innovations in Patient-Centered Care*** (Buffet Dinner)
